

E-Commerce Performance Analysis

DASHBOARD INSIGHTS

KPI Metrics

- **YTD Sales: \$11.53 M**, showing a -0.83 % decline compared to last year.
- **YTD Profit: \$1.34 M**, reflecting a +4.50 % increase - meaning margins improved even though revenue slightly dropped.
- **YTD Quantity Sold: 107.2 K units**, -7.29 % lower than last year - suggesting higher profitability despite fewer items sold (possibly better pricing or cost control).
- **YTD Profit Margin: 11.58%**, a +5.37 % increase - suggests optimization in product mix or reduced operational cost.

Insight: Even with lower quantity and slightly lower sales, the company achieved higher profitability — a strong indicator of business health and pricing discipline.

Category-wise Performance

- **Office Supplies** – still the highest revenue contributor (~60%) but slightly down YoY.
- **Furniture** – the only growing category; small growth indicates opportunity to scale this further.
- **Technology** – slight dip may reflect competition or lower upgrade cycles.

Insight: Focus marketing on Office Supplies retention and Technology recovery, while expanding Furniture sales through cross-sell opportunities.

Regional Sales Breakdown

- **California** – \$2.3 M
- **New York** – \$1.3 M
- **Texas** – \$1.2 M
- **Pennsylvania** – \$0.7 M
- **Washington, Florida, Illinois, Ohio** – around \$0.4M–\$0.6M each

Insight:

- West region continues to dominate.
- South and Central underperform compared to market potential — worth deeper analysis of logistics or marketing investment.

Action:

Boost brand penetration in South & Central through region-specific offers, better delivery terms, or partner incentives.

Customer Segment Insights

- **Consumer** - Largest revenue segment; consistent performer.
- **Corporate** - Stable but with potential for bulk growth
- **Home Office** - Smallest but growing steadily - possibly benefiting from remote work trend.

Action:

- Offer subscription-based supplies for corporate clients.
- Launch bundled home-office packages (e.g., furniture + office essentials) to leverage demand.
